UNIVERSAL REMOTE CONTROL RC3200

Programmable Touch Screen Learning Remote Control

With the introduction of the Marantz RC3200, Marantz adds a new dimension in the area of customizable, interactive devices. The intelligent RC3200 controls virtually all audio video devices through its Marantz Digital Learning capability. The ability to update your software via PC connectivity and large memory capacity make programming and learning a breeze. Housed in a trend setting, high-tech design, the light, ergonomic RC3200 provides effortless, intuitive control and navigation, for personalised home entertainment enjoyment.

The future in your hand

The touch screen way

Marantz has added a latest marvel to its extensive range of communication devices. The light, sophisticated RC3200 incorporates a customisable illuminated touch screen panel with back lighting, advanced functionality and a trend setting ergonomic design. It utilises a monochrome touch screen LCD with 4 gray levels and digital contrast control. The innovative RC3200 displays "virtual" buttons that reconfigure and rename themselves according to the audio and video component selected. All of the controls, of any component, are available at the touch of Marantz unique tab-style navigation. It features a blue EL back lighting for the LCD and intuitive hard buttons (14 programmable), and displays a resolution of 160 x 100 pixels.

Customise and create

The RC3200 is completely customisable and programmable. It is pre-programmed to control Marantz audio and video components and can operate different brands as well. With the Marantz Digital Learning capability featuring a learning frequency up to 56kHz the RC3200 can easily learn the codes from most non-Marantz component, including IR-controlled accessories such as a motorised projection screens and lighting. With 1 MB non-volatile flash memory available you can program an endless number of devices and tab lay-outs into the RC3200. An extensive selection of pre-designed button graphics enables you to choose the ideal customised interface layout. The RC3200 can record your favorite communication sequences as macros, to transmit a multitude of commands with the touch of one button.

The future in mind

Personalised setup can be further customised via a PC interface and Windows PC programming software. With the RC3200 setup programming software you can layout your pages, create and label new buttons to completely personalise your remote control. The RC3200 is future proof and allows you to update the software. You can download the software from www.marantz.com via the RS232 3-wire serial port connector.

RC3200 Remote Control

Features

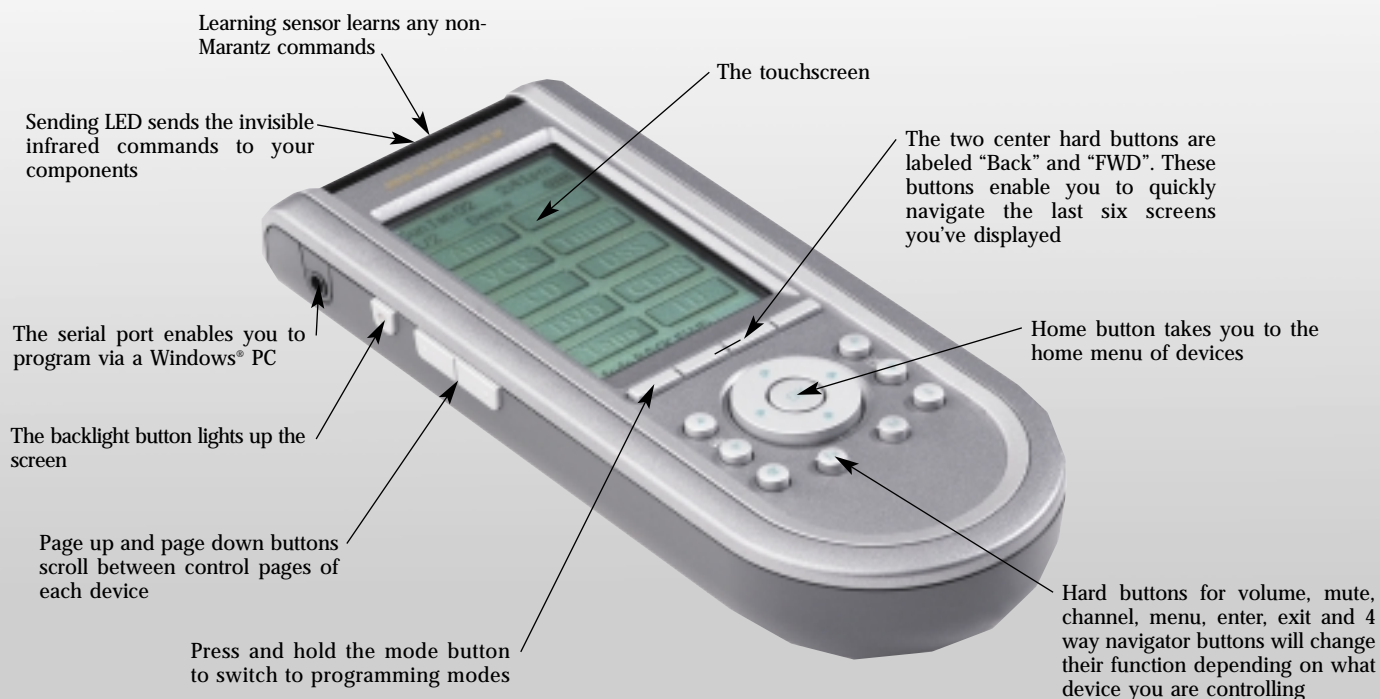

- Monochrome Touch Screen LCD
- 160 x 100 Pixel Resolution
- 4 Gray Scale Levels
- Digital Contrast Control
- Blue EL Backlighting for LCD and Hard Buttons
- Pre-Programmed Marantz IR Codes
- 3-Wire (RS232) Serial Port Connector
- Infrared Sending LED and Learning Eye
- Learning Frequency up to 56kHz and 455kHz
- 1 MB Non-Volatile Flash Memory
- Macro, Beep and Timer Function

Specifications

LCD Screen mm (W x H)	43 x 67mm
LCD Resolution	160 x 100 Pixels
Back Light	Blue EL
Memory	1 MB
IR Operating Distance	10 metres
Carrier Frequency	56kHz, 455kHz
Learning Distance	2.5cm upto 100cm
Battery Life	3-4 Months
Operating Temperature	5°C - 45°C

General

Color	Charcoal Grey/Silver
Accessories	RS232 Cable, 3 AA-Batteries
Dimensions mm (W x H x D)	74mm x 177mm x 33mm
Weight (With Batteries)	235g
Weight (Without Batteries)	165g
